### 4. Statement of Member Commitment

#### MoldGBC Mission Statement

The Moldova Green Building Council will endeavor to deliver the market, educational and legislative conditions necessary to promote high-performance construction that is both sustainable and profitable. We will create an exemplary model for the region by ensuring the built environment will not imperil future generations but rather be a source of **safety, comfort, innovation and opportunity.**

### MoldGBC Objectives

To promote market transformation and facilitate the implementation of the next generation of high performing green constructions, Moldova Green Building Council will:

- Facilitate the availability of the most up-to-date and highest quality training to create the necessary pool of national green building experts.
- Support the development of appropriate regulatory conditions that promote sustainable constructions while ensuring attractive returns on investment.
- Develop and implement a national green building standard and certification system.
- Support the development of green construction and position the Republic of Moldova between the sustainable construction leader-countries in Europe.
- Build an inclusive organization by facilitating the collaboration between all relevant players to eliminate systemic barriers to promote a truly sustainable built environment.
- Promote domestic, regional and international collaboration to share knowledge and encourage innovation.
- Research, compile, and disseminate best practices for the region and encourage their adoption and implementation.

### Member Commitment

As a member of the **Moldova Green Building Council**, we hereby agree to actively support and adhere to the Mission, Statement and Objectives of the MoldGBC, and to contribute directly through our own organization's activities.

We hereby commit to actively support the Mission and the Objectives of the Moldova Green Building Council, and to contribute our organization's effort to creating a sustainable built environment.
